About World Intelligence Congress

The World Intelligent Congress (WIC) is, with the approval of the Chinese government, co-hosted by National Development and Reform Commission, Ministry of Science and Technology, Ministry of Industry and Information Technology, National Radio and Television Administration, Cyberspace Administration of China, Chinese Academy of Sciences, Chinese Academy of Engineering, China Media Group, China Association for Science and Technology and Tianjin Municipal People's Government. Since 2017, it has successfully held seven sessions and has become a top-level event for academic exchanges, exhibitions, openness, innovation, and deepening cooperation especially in the field of intelligent science and technology around the world. Chinese President Xi Jinping has sent a letter of congratulation to WIC, proposing to build an all-win platform for communication, cooperation and sharing through WIC to promote the healthy development of new generation AI and better benefit the people of all countries in the world.

Premium Communication and Strategic Vision

WIC, featuring premiumization, internationalization, specialization and marketization, has attracted the most influential scientists and entrepreneurs devoted to intelligence industry at home and abroad, making it the most authoritative, high-quality and high-standard global event in the field of intelligent science and technology.

Nobel Prize and Turing Award winners	17	Fortune 500 enterprises	133
Academicians and well-known scholars	280+	China's top 500 enterprises	386
Domestic and foreign media	1145	Unicorns and well-known science and technology enterprises	1040+
Activities held	200+	Domestic and foreign journalists	1300+
Participating countries and regions	57	People attending WIC forums	75000+

SEVEN SESSIONS OF WIC HAVE ACHIEVED FRUITFUL RESULTS TIANJIN ATTRACTS WORLDWIDE ATTENTION, AND INTELLIGENCE BRIGHTENS THE FUTURE.

WIC reappeared on “hundreds of websites live broadcasting simultaneously, tens of thousands of people showing on the same screen, and hundreds of millions of people watching the broadcast live”, and the total number of online views has exceeded 9.35 billion. Overseas media around the world promoted in six languages, reaching 68 countries and regions. China.org.cn launched the “China Mosaic” special program of WIC for the four consecutive sessions, which has been reposted by many platforms and channels at home and abroad (including 1145 overseas mainstream media from 31 countries), attracted 3.61 billion overseas views on all channels. “News Broadcast” of the CCTV broadcasted WIC three times, “Oriental Horizon” “Morning News” and others programs also focused on this, with 97 articles were broadcast, and more than 240,000 media reports across the media.

Elaborate Display of Application Scenarios

The “WIC Outstanding Cases Selection for Intelligent Technology Innovation and Application” is jointly created by the WIC Organizing Committee, the Chinese Institute of New Generation Artificial Intelligence Development Strategies (CINGAI) and the Expert Advisory Committee of Tianjin Intelligent Science and Technology Industry. Focusing on three major fields, namely, **Intelligent Manufacturing, Intelligent Connected Vehicles and Intelligent Low-carbon Development**, and soliciting excellent cases globally. There were 10 outstanding cases selected and launched at the closing ceremony during the 7th World Intelligence Congress.

Main exhibitors

Ten themed exhibitions and intelligent experiences, the exhibition has displayed at the National Convention and Exhibition Center (Tianjin) for the first time, with the exhibition area reaching **120,000 square meters**, made it the leading exhibition in the field of intelligent technology in China. There are **8 exhibition halls and outdoor exhibition areas** for themed exhibitions such as **IT Application and Innovation, Artificial Intelligence, 5G+ Industrial Internet, Intelligent Transportation, Intelligent Manufacturing, Smart Life, Digital Finance, Digital Health, International and Local Situations**. Besides Tianjin exhibition area in Hall S16 focuses on the display of the action plan for high-quality development of manufacturing industry and the development achievements of “1+3+4” industry. There are two intelligent experience zones for **Intelligent Connected Vehicles and 5G**, fully displaying high-grade, high-precision, and advanced products and technologies in the field of intelligence. At the same time, the Binhai New Area Modern Industry Exhibition and Exchange Centre, the “WIC Permanent Exhibition base” in Sino-Singapore Tianjin Eco-City, the “WIC 5G Application and Innovation Experience Base” in Tianjin Unicom, and “Smart Port” in the Tianjin port are open all year round.

WIC Gathers Industries, Talents and Wealth

World Intelligence Congress has now become an accelerator for developing intelligent technology industry in Tianjin. Seven sessions of WIC have contributed to **800** cooperation agreements, with the total investment reaching **625.3** billion yuan. The intelligent technology industry cluster in Tianjin has been growing stronger and stronger, with lots of famous enterprises' headquarters settled in Tianjin, including UniCloud, 360, TCL, Lenovo, Kylin and General Technology Machine Tool Group, and many landmark projects in Tianjin have attracted great investments such as Alibaba Center (Tianjin), Huawei Kunpeng Ecology, Tencent's largest IDC data center in China, iFLYTEK Sound Valley in North China, CETC New Materials, Hikvision and Siasun Robot. Many enterprises have ever since changed identity from Tianjin's guests to hosts through the "gilded signboard" WIC.
